

Section Five - Residential

This was another passion project of mine. I trained to be a Peer Educator during my residential. This was one of the first sections I completed and was a lovely springboard for the rest of the award. I met Leaders from all over the Region, learned how to deliver sessions to all guiding age groups, and discussed thought-provoking topics which really affect the girls in our care. I was also able to carry this on with many guiding groups in my area upon returning, helping the girls to understand that we create a safe space for them and value their opinions and wellbeing.
