

Jellyfish in a bottle

What you need:

1 x clear plastic shopping bag
String or a rubber band
One litre clear plastic bottle
Scissors
Blue food colouring

Instructions:

1. Cut the handles off the shopping bag so that you have a plain square of plastic.
2. Bunch the plastic bag inside of itself and tie a section off with the string/ rubber band to make the jellyfish's head.
3. Cut the remainder into strips for the jellyfish's tentacles.
4. Push the jellyfish into the empty bottle.
5. Fill the bottle with water and add a few drops of blue food colouring.
6. Squeeze the bottle or tip it upside down to make the jellyfish swim up and down inside the bottle.
