

MIDSUMMER

CAMPFIRE BISCUIT

How to make

1. Make your water icing quite stiff and add orange food colouring.
2. Using the icing build a pyramid of small marshmallows in the centre of the biscuit.
3. Break the chocolate stick into small pieces and dip one end of each into the icing. Position the chocolate sticks upright against the side of the marshmallows with the icing at the bottom to hold the chocolate in place. These are the wood of the fire.
4. Break the strawberry lace into small pieces and dip one end of each into the icing. Position the laces upright against the marshmallows in between the chocolate sticks with the icing at the bottom to hold them in place. These are your flames.

Materials

a round biscuit for the base

Water icing made from icing sugar
Food colouring

Chocolate sticks

Small marshmallows

Strawberry laces
